COMPANY PROFILE & CAPABILITY STATEMENT

MARKSERV ENGINEERS

Excellence in Engineering Solutions

Industrial Pumps • Compressors • Filtration & STP Systems • Dosing & Process Equipment

H.No. 12-13-645/B&C, Nagarjuna Nagar Colony, Tarnaka, Secunderabad - 500017, Telangana, India | +91 95425 92550 | info@markservengineers.com | markservengineers.com

MARKSERV ENGINEERS

Engineering trust, one installation at a time.

Markserv Engineers is an Authorized Channel Partner supplying a premium range of Progressive Cavity (PC) Pumps, Industrial Air Compressors, Filter Press Systems, Screw Press Dewatering Systems, Easy STP plants, Chemical Dosing Pumps, Centrifugal & Gear Pumps and Bearings.

Operating as a Sole Proprietorship headquartered at Tarnaka, Hyderabad, Telangana, our business activities are closely monitored by skilled, experienced professionals — ensuring every client receives dependable equipment, honest guidance and responsive after-sales support.

08 Years of Experience

25 Products Range

100+ Satisfied Clients

MARKSERV ENGINEERS

Complete Equipment Portfolio

- PC Pump / Screw Pump
- Air Compressor
- Filter Press System
- Easy STP
- Screw Press Dewatering
- Chemical Dosing Pumps
- Gear Pump
- Bearings

MARKSERV ENGINEERS

Pumps & Compressed Air Systems

PC Pump / Screw Pump

Progressive cavity pumps engineered for consistent, low-shear transfer of viscous, abrasive and solids-laden fluids across demanding industrial duties.

- Smooth, pulsation-free flow
- Handles slurries & sludge

Industrial Air Compressor

Reliable compressed-air systems sized for continuous plant operation, delivering efficient, low-maintenance performance across production lines.

- Energy-efficient operation
- Built for continuous duty

MARKSERV ENGINEERS

Filtration & Effluent Treatment

Filter Press System

Robust filter press units for efficient solid-liquid separation, producing drier cake and cleaner filtrate to reduce downstream disposal costs.

- High solid-liquid separation
- Lower disposal costs

Easy STP (Sewage Treatment Plant)

Compact, easy-to-install sewage treatment solutions that help facilities meet discharge norms while keeping operating costs under control.

- Compact plant footprint
- Compliance-ready output

MARKSERV ENGINEERS

Dewatering & Dosing Solutions

Screw Press Dewatering System

Continuous screw press dewatering technology that reduces sludge volume efficiently, cutting handling and transport costs for waste treatment.

- Continuous sludge reduction
- Lower handling costs

Chemical Dosing Pumps

Precision dosing pumps for accurate, repeatable chemical injection across water treatment, process and utility applications.

- Precise metered dosing
- Reliable process control

MARKSERV ENGINEERS

Power Transmission Components

Gear Pump

Compact, high-precision gear pumps delivering steady flow for oils, lubricants and viscous fluids in industrial transfer applications.

- Steady, precise flow
- Compact footprint

Bearings

Quality industrial bearings sourced from trusted brands, supporting rotating equipment reliability and reduced unplanned downtime.

- Trusted brand sourcing
- Reduced downtime

MARKSERV ENGINEERS

High-Performance Service Across 12 Industries

- Sugar & Distilleries
- Food & Beverages
- Paper & Textile Mills
- Explosives
- Paint Industry
- Edible Oil & Gas
- Cement & Ceramic
- Pharma & Chemicals
- Waste Water Mgmt.
- Mining & Biogas Plants
- Power Plant Construction
- Laser, CNC & Plastic Moulding

MARKSERV ENGINEERS

Authorized Partnerships, Dependable Support

Authorized Channel Partner

Genuine equipment backed by manufacturer standards and warranty support.

Cross-Industry Expertise

Proven deployments across 12+ process industries, from sugar mills to power plants.

Responsive Support

Hyderabad-based team providing prompt quotes, installation guidance and service.

8 Years of Trust

A growing base of 100+ satisfied clients across a 25-product equipment range.

Proudly serving as Authorized Distributor for leading industrial equipment brands across Telangana.

Let's Build Your Next Process Solution Together

Request a quote or reach out for a site consultation — our engineering team responds promptly with the right equipment for your plant.
